

TCREPE NEWSLETTER October 2020-March 2021

TCREPE (Textile Engineering for Co-Creation Paradigms in Education) is a three-year Erasmus+ project, started on October 2019.

2nd Training Workshop (LUT-Online)

Bringing to the participants a feeling of visiting Finland and Lappeenranta, LUT organized the 2nd training workshop virtually. The goal of the workshop was to familiarise partners with educational and entrepreneurial aspects in T-Crepe project, focusing on students – Feelings of ownership in co-creation. The training workshop had 61 internal and external participants from all over Europe.

The workshop ended with a wrap-up and T-Crepe consortium meeting. Several ideas and aims were clarified further, giving thus solid corner stones for the next T-Crepe actions.

If you are interested to participate in TCREPE's Training Workshops, stay tuned for the announcement of the 3rd Training Workshop on our website or Facebook.

Planet Platform in 4 academic courses

Lecturers from UGent (Belgium), UNIWA (Greece) and NKUA (Greece) universities are currently using the project's co-creation planet platform in their courses (2 BA and 2 MSc courses). Have a free tour at the courses and explore the design thinking tools and games they use directly on the planet platform: <http://cocreationplanet.eu/>

New ChoiCo games

Academic lecturers in collaboration with NKUA designed and developed **6 new ChoiCo games** that were added in the respective courses of the co-creation planet. You can find the games by clicking on their titles above or in the relevant course of the co-creation planet.

1. "[Uses of an e-learning platform](#)" (course: E-learning systems)
2. "[Building an online course](#)" (course: E-learning systems)
3. "[Designing a camping tent](#)" (course: Design of products and services)
4. "[Equipment Store](#)" (course: Design of products and services)
5. "[The many uses of a heating pad](#)" (course: Educational design of digital material)
6. "[Sustainable Textile Dying](#)" (course: Educational design of digital material)

Keep updated on project's latest news

All information, news, activities, material, and project outputs will be available on the **Project website**: <https://t-crepe.eu/>
